couple of weeks ago, we had our new people come into office and one of those people had a horrible tragedy where they lost their child violently in our community. Kevin Mathewson couldn't help himself so this family is still going to - I don't think you can ever get over that. This man is running for office. He is now a public figure. I don't have to say his name. Everyone knows who it is. Everyone either knows who it is – you can find out very easily. Kevin Mathewson goes on a public forum, his own forum and he says 'ya, it was horrible what happened to him and his kid but he voted for Bernie Sanders so that makes him some, you know, a communist and everything. He couldn't just focus on him voting for Bernie Sanders. He couldn't just call him a communist, he had to tie in, he had to say it, he had to tie in the death of his child he had."

99. Although Defendant ROBERTS didn't mention this man by name, he was referring to Kenosha Alderman Kelly Mackay.

100. Like most of what Defendant ROBERTS says about Plaintiff MATHEWSON, this was a lie.

101. Plaintiff Mathewson never said anything similar to this about Mackay.

102. On Saturday, May 28, 2022 at 9:41pm Defendant ROBERTS posted

on Facebook calling Plaintiff Mathewson a “domestic terrorist white supremacist.”

103. In this post, he also states that Plaintiff MATHEWSON “**has written no less than 4 articles on the recent tragedy downtown Kenosha. Why? Because he knows the victim is kin of a local minority leader. 4 articles in a matter of days. Simply to spread more hurt and harm. This is why I am continuing my legal campaign against him. Domestics (sic) terrorists need to be put on notice. As well the women supporting them. As well the families thy train up to follow in their terrorist ways. 113. This story was newsworthy objectively.

114. Defendant Roberts is inferring that by Plaintiff Mathewson writing about the Brooks homicide, Mathewson is somehow acting out of racism.

Everyone doesn't love every Raymond:

This guy was an alderman when I first came home from Army. I opened my business. He tried to shake me down for 5k to "take surveillance off" of me. My crime you ask?

I bought a small coffee shop in January. My plan including adding a beer and wine license. In anticipation of my license coming through, I started calling vendors whom I already had relationships with. One day a vendor came in to help me plan my initial setup for wine and brought in samples. A customer had been hanging out a while, a little past close. Since we were all there I didn't feel the urge to kick him out. Eventually he began engaging in the conversation.

We let him have a wine sample. He left and returned within hours with this guyhis "boss." This is when he informed us that the police were staged outside ready to raid the place, but he could make it all go away for 5k. What he didn't know is that we were some PTSD'd vets. So we simply went to the back and started loading weapons. Needless to say no one was stacked outside.

He saw himself out.

When we talk about the effects of institutional racism, we are talking about how 12% of the population was denied rightful places in society. This also means that people assumed positions they should have never held.

Ray Misner is one of those types of men.

Our recent **White Nationalist** Commander Kevin Mathewson is another.

These men are the nasty byproducts of a society that denies rightful places to some people, thus allowing individuals that are a detriment for all concerned to instead have the role or position.

Kevin Mathewson, that is where you want to focus. You want to talk to the other local news agencies tracking his

movements, as well as the New York Times. Many of us have been giving interviews about him. He is the key. Daniel Thompson formerly of the Kenosha News can provide you information about his terror network, and a little about his schedule. The local Civil Rights organizations have been connecting with national affiliates (ACLU, NAACP, Urban League) to ensure the word is spread about him and his family. His children attend a local public school so the word has been put out to watch out for the possibility of his using his children possibly as suicide bombers or something.

You can also contact the Racine County Eye, last I heard they have been trying to track down more information about the White Nationalist Commander, so they will likely be able to square you away. You can also maybe call the FBI. They track this high level of crime that Mathewson and his network is engaging in.

Yes,

There was a white nationalist named Kevin Mathewson. It was all him and his terror network. They are also affiliated with the group that was arrested for attempting to conduct a terror cell operation in Michigan. I am SO glad someone is finally picking this up. When can we schedule an interview!? I have much more information about this terror cell and how it links to that night.

My phone number is a mater of public record. If you have any questions just call. It is interesting reporter from all over the world can contact me but local muckrakers cant. I guess if a local propagandist were to call (on a recorded line I'm sure) and ask me a question they would not have their gotcha moment. Such a sad life to live. Well stay tuned for the exposé!!!!

That history untaught that results in local elected officials publicly posting things like "and they wonder why African Americans are more likely to go to prison."

Actually Alderman, we don't. We know exactly why. The question is whether or not you do. Sure you will hear individuals claim this history is the past. I counter with a few thoughts and a few questions.

This happened in 1958. The adults who did such things, who stood idle when others did such things. Did they have children? Did they raise their children in their own ways?

If the city has an alderman in his late 50s or early 60s, could he possibly have been one of the children, now an adult in a position of influence, raised to see such things as appropriate and normal and just. Could this be why he speaks the way he speaks, acts the way he acts?

Racists Americans from the Civil Rights were not whisked away in some racist rapture the moment MLK JR day was declared. This idea that division over such topics is new is disingenuous to say the least. In fact the people most ardent about selling this myth are equally the ones most likely to do such things or stand idle while others do them as we see below.

The pardon for these boys was done out of remorse but rather the world-wide attention the case received. Our local alderman is not apologizing because he no longer feels that black incarceration is due to system issues, but in the same light, because his actions went viral.

Some say he is apologizing because he got caught. This is not true. When it first became a thing, he stood firm on his behavior. This is no different than when Kevin Mathewson, local white supremacist leader stood firm and demanded that he be referred to as "Commander." It was not until a large enough population started to pay attention that both men started back tracking on their dedication to their stances. This is the coward's way.

The idea that our local elected official is now going to speak with the faith based leaders, this is at most a test for those leaders. If they support the narrative that it is reasonable to offer forgiveness absent consequences, they are no different than the faith leaders who preach peace and grace to the black side of town after the shooting, but have no words of peace and grace for the police before the shooting.

For those who follow my words, you may remember me being suspicious of all the Kenosha community groups that popped up. I stated that I was not sure if they wanted to build a stronger community, or rebuild what was there before the unrest, where things were bad, but better hidden.

This would be a great time to see those groups prove me wrong and demand some "rebuilding" for a "strong" community to move forward. This would be an awesome time to see people who ran for office but did not win, show what they claim to be; champions for all in the community.

Coming back to the original statement about lessons never learned, I guess the only question is whether or not our members of society who missed these lessons.... are they interested in learning the truth? Or have they forever aligned to the malignant and malicious version of history, that version where African Americans are in prison more often because of their culture, or lack of family or their genetics.

The good thing about such trials is that regardless is that regardless of what we all do, it shows who we are. This is an endurance sport. Let's see who is too tired for this round.

County Board,

It has been brought to my attention of allegations presented about me and others who have been nominated for the County Commission Board on Racial Issues.

I would offer two items.

1.) Both the individuals that Kevin Mathewson has targeted have been vocal about his involvement with the domestic terrorism, specifical white supremacy militias. Both nominated individuals are actively involved with litigation and efforts against Kevin Mathewson for his roles that we are alleging he has played in several race based activities against ourselves and members of the public. It is to the point that we are working alongside the ACLU to formally organize the body of evidence against Kevin Mathewson. Anyone interested in details on the actual information can definitely contact me or ask for ACLU contacts on the current status of those efforts against Mr. Mathewson and his organization.

2.) Mr. Mathewson has created a reputation for misrepresentation and mischaracterization of people that he vendettas against based on race. If the board takes a little time to investigate the items presented by Mr. Mathewson, you will quickly find that the narratives he has painted do not match his wording and voicing. Mr. Mathewson has numerous times been caught using aliases and false identities to present his disinformation, making false police reports and threats, and is now attempting to utilize allege information against public officials in moving forward with the future of our community.

I would recommend that for the sake of not slowing the founding of the Commission, my name be removed as an official board member while those interested review Mr. Mathewson and his organization and supporters' allegation, while also examining the body of evidence regarding Mr. Mathewsons' role as a local leader in the midwest white supremacy movement. My interest to date in such public initiatives has been as a data scientist, which is my current profession. I am able to provide any and all support the county desires analytical solutions whether I am officially sitting on a board or not. Titles are of no consequence regarding such important matters.

While I have directed this to the County Board, I am available for further comment to any and all that were on the original list of Mr. Mathewson. If requested I can even schedule group sessions along with the ACLU to provide context of the work I am currently doing analytically for tracking terror groups and their leader-cells through social media online. This again is how I have come to draw the ire of Mr. Mathewson, but he is not alone. The work is showing there are many others operating as he does.

Respectfully,

So I get spam email like everyone, but recently I started getting odd stuff, pornography, and stuff even weirder. I finally was able to realize it was coming from our local Commander Kevin Mathewson. Basically the guy is signing up at trash sites using my email.

So if you find the time, help a brotha out. When you go to unsubscribe from junk email, if they offer you the opportunity to change your information, change it to:

Commander Kevy Bear Mathewson
kevin@kminvestigate.com

He maintains a short list of people he does this foolishness to, so he is simply changing it back to my information. However if the entire community is flooding him, even if he still changes some of it back to me, I will simply hire an assistant to focus on redirecting back to him.

Thanks in Advance.

Sheriff's deputy fired after making violent threats on secret Parler account.

During the American revolution, colonists moved in secret and under pseudonyms because they would face legal intolerance for their behavior, possibly death as traitors to the King.

Today you have legal tolerance. Call the government stupid all day while you free ride public benefits and contribute nothing (I am using the economic definitions of free riding and contributing, I may do a collective action video later) and no govt people will scoop you up*.

Also you have social tolerance where you can't be expelled from your city or town by the locals like blacks were done the majority of the years following emancipation (with the support of government).

Now what the world does not owe and is not giving Parler kids is intellectual tolerance. No, people don't owe you following the belief that holding such beliefs as this doesn't make you a liability to the general public. This why these types don't use their real names and profile pictures on Facebook. As they learn that not everyone on Parler is a likeminded person and their are people looking to out them, they will hide behind digital hoods mimicking those of their ancestors.

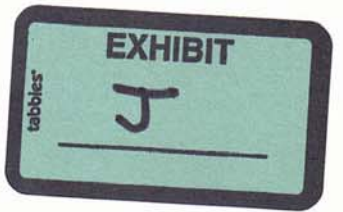

The local **terrorists** who organized the **white supremacy** militia groups, Kevin Mathewson, that guy often opines about how he isn't a criminal because he has never been convicted of anything. However he spends a large amount of time and resources concealing his day to day activities from the public eye. The websites and Facebook pages, he pays premiums to domain services to mask who owns them (him). His supporters are people within government and local business who like and support his activity, but know it would be in their best interest if the general public knew... so they keep their relationships low-key. This is why last week when I mentioned I saw a table of them at lunch, the grown men damn near RAN out of the public building. Why run?

You often hear about government being the number one threat to your well being. In reality its the individual next to you. Government is not kidnapping governors. Government isn't planting Christmas bombs on 5G towers. The groups telling you government is your biggest concern are the ones doing or supporting above. Like our friend below, they speak about the people not standing idle anymore in response to mask policy.

Government is large and easier to see. So its an easy sell about what they could do. However pay attention to what is ACTUALLY done. FBI almost the last decade has put out number for home grown, often racially linked, terrorism. These numbers dwarf antifa, blm, radical Islam and the commie kids. Pay attention to the types telling you these numbers don't matter and that there is a "real" truth.... that they have to whisper behind closed doors.

Seems Commander Kevin Mathewson is back at it AGAIN. He is now sending military veterans death threats via phone and email. If there are other veterans that are also getting these communication from Kevin Mathewson let me know. Maybe if we submit a complaint as a group there may something that can be done. I mean he likely doesn't have the technical expertise to make suicide vests for himself and his children as he claims..... but you never know.

If you have a few minutes on your hands, leave a review for Kevin Mathewson. He is the local militia leader that now operates under fake names like Sabrina Perez, and online blogs. He was one of the forefront leaders celebrating Kyle Rittenhouse as a leader and promoting that out of town "citizens" come into town armed and "defend buildings."

He also is the militia leader who told police to not get in his way when he troops came into the area.

Put some civic pressure on him and those who support him because they align with his agenda.

I left him a review. If it moves you..., you should also.

Someone needs to do the public service so I guess I will. If you see this name floated on communications between public officials, this is in fact another fake alias of Kevin Mathewson. When I say he is a local white supremacists that isn't just a label being thrown out there. This is what the man spends his time doing. Making up fake profiles and email addresses, and sending these kind of communications to public officials.

Now for the record. Public officials are requires by law to be available for communication in ways that all can reach them. So you can't say block senders on your Facebook page or political email. This is why Bryan Steil tolerates me fireflaming him everyday on his social media page.

What politicians like Bryan DONT owe me is sharing me words. If he learns I am operating under an alias he doesn't owe me not sharing that I am using an alias. Number one on the list BRYAN DOESNT OWE ME A RESPONSE.

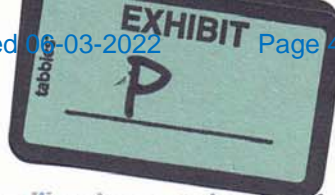

Checked over and over. Politicians do not owe responding. If a known (or unknown) white supremacists writes racists stuff to a politician that politician has a choice whether or not they begin a back and forth relationship with that person. They choose to normalize the conversation by responding as if there was nothing wrong with the racist conversation and not calling out the writer should they choose to respond.

After a while you have some level of accountability regarding those who mistreat you if you insist on continually inviting them into and making them comfortable when they come to do it.

Police: Detective speaking.

Me: Yes, giving a call. My wife says you have been calling her number looking for me.

Police: Yes Mr. Roberts.

Me: Well that number is hers. Not really known as a guy that hides so you can take this number down.

Police: Well this is the number we had.

Me: From where if you don't mind me asking?

Police: From a previous case..... with Mr. Mathewson? Maybe this was your number then?

Me: No, that has always been my wife's number, but you mentioning that twisted, sad excuse for a man.... you having my wife's number makes sense. So this about that clown?

Police: Yeah.

Me: Okay.

Police: Well Mathewson sent us a screen shot from Facebook from last week. It says "Well Commander Kevin Mathewson is up ---"

Me: No need to go through it all. I wrote that. Every word. It all happened.

Police: Well Mr. Mathewson is calling us because you mentioned his kids.

Me: I mentioned him mentioning and using his kids.

Police: Yeah. Well whatever feud the two of you have, it might be better to leave family out of it.

Me: <swallowing the irony> Yeah, well I agree. Cdr. Mathewson SHOULD leave his family out of his work. He shouldn't indoctrinate his kids. He should honestly leave EVERYONE out of his hate-work. Until he does, the only weapon I have against worms like him is going public with every sad, twisted, loser thing that a dirtbag loser like him does. The idea is that enough people know about what a dirtbag he is, he becomes compelled by the generally decent public to become something useful to the greater good.

Police: Yeah.

Me: I mean you and I both know if I brought you the emails he sends there is nothing you can do because its all fake names....even though we all know what fake names he uses. So I figure save myself some taxpayer dollars and skip the paperwork.

Police: Well again, Mr. Mathews would like you to leave his kids out of it.

Me: I hear you. I would like Mr. Mathewson to leave my wife out of it, and me, and society. Whatever it is he has going on.... but doubt Mathewson the worm is gonna stop being a worm anytime soon.

Police: Mr. Mathewson says he has no problem with you.

Me: I believe you.... that he said that.

Police: Okay Mr. Roberts.

Me: Okay, enjoy your day Detective.

Kevin Mathewson is currently listed as a white Supremacist with Southern Poverty Law.

As you all know Kevin only recently admitted he was behind the trash rag pretending to be a news outlet. Kevin Mathewson again is also the failed dirty politician who quit his office before it was released of his crimes.

Kevin Mathewson hid and lied to the community for years about being the person behind the public postings.

If it is not in the best interest of the community, you can rest assured that Kevin is likely tied to it.

Funny little local-yokel moment:

So some of you are aware of the decade-plus long feud I have had with local wedding photographer **white supremacist**, Commander Kevin "Kevy Bear" Mathewson. Well the current proxy war we are waging is over a local business that haters are trying to shut down, and I, since I got time today.... am working against them. So there is currently an email chain consisting of all the local elected officials, me, and "prefer to remain anonymous" group of business people seeking to shut down a particular competitor (we are not supposed to know that) and Kevin Mathewson.

For the record, I consider that I am winning because we are no longer talking about shutting down the business and the conversation is 100% me and Cdr. Mathewson going at it. So on to the funny parts:

1.) I alleged that Kevin is on the **Southern Poverty Law Center's list of white supremacists**. Kevin wrote back that I was lying. He is right but here is the rub people.....it took him several days to respond. Do you know what that means?

HE HAD TO CHECK FIRST!!!

I have been laughing SO hard about this!!

Seriously. Imagine someone coming up to you and saying "I have pictures of you having sex with a goat. Give me a thousand dollars or we go public!" What is your response? Do you say --

- a.) Show me you REALLY have the photos, and I want the negatives.
- b.) Uh.....sure bro. Do what you do. Good luck with the deepfakes.

The fact is, my claim WAS POSSIBLE. He had to go check, lol! Mathewson the answer is clearly option a.

2.) In the same breath, Kevin states that I am poor and "don't have a pot to piss in", and then says he is going to sue me for everything I got.

Why would you sue someone for their piss? It doesn't even come in a container? Does he plan on bringing a pot for me to piss in? Don't get me wrong, I have done a UA test once or thrice in my life, just never had someone so eager to get the goods out of me.

Oh well. Just thought someone might appreciate that Friday chuckle.

Kevin Mathewson,

This is the last time I will ask you to stop harassing me. Ever since I you were a politician and I informed the community about your "Cabrini Green" comments you have attempted to wage a disinformation campaign against me to divert attention from your racists and underhanded behavior. Your then continued paramilitary activities is also duly noticed across the nation, and with the nation's Civil Rights Organizations. If you want to waste your money in court only for the ACU and SPLC to back my declarations about your behavior and its ties to white supremacy, that is your right as an American citizen. Not only will not be hiding from the world who really are, I will also be posting this communication.

Mr. Roberts,

I have attached a very small fraction of screenshots that I have saved from public posts you have made about me in the last couple of years.

After this most recent post where you admit to lying about me being a white supremacist, you have really tipped the scale to my favor even if I were to be considered a public figure under the 1964 case New York times v. Sullivan.

You admitting that you made a false statement that you knew to be false and you did so to defame my character is all but securing a win for me in a defamation suit.

As I said before, I know that you have no money and even when I win will be unable to collect, I cannot allow your deformation to go unchecked any longer.

I have several demands for you if you wish to avoid a defamation suit. Please know that this is not a bluff and although I hope to avoid litigation, I am fully prepared to do so.

1. Remove every public post that you have referred to me as a white supremacist, domestic terrorist, or said something about me training my children to be suicide bombers.
2. Make a sincere public apology on your Facebook page for your untrue statements
3. Draft a letter of intent saying you will not be making any future defamatory statements about me.

If you do these things by close of business on Tuesday, March 8th I will not commence a lawsuit.

If this deadline passes or you indicate me beforehand that you will not be following my demands, I will be filing a defamation suit against you.

Thank you,

Kevin Mathewson

Kevin Mathewson's attempt to silence me regarding his ties to paramilitary groups, **white supremacy** and remind the general public that for numerous years he used fake names to intimidate and harass both public and private citizens, only recently coming forth and admitting that he was the entire time behind the website "Kenosha County Eye"

Snakes like Kevin Mathewson exist solely because of individual fear within the community. People do not like him, but understandably so, no one wants to become his next "investigation"

Kevin has presented people's past with VERY artistic liberties of the facts.

Kevin has presented people's FAMILY member's past, to shame and silence relatives.

I remain resolute in the statement that Kevin Mathewson's generally known and recorded behavior is not a net benefit to our community. If it was, he would not hide so much of what he does.

If it was, the people who support him would not hide behind closed doors, back alley meetings and conspire sessions.

I was actually getting feedback about an aspiring politician who does not like me, but simultaneously is championing Kevin Mathewson. The speaker was sharing out of concern for me and my families welfare. I cut him off. I told him the the people of Kenosha know both me and Kevin Mathewson well enough, anyone trying to preach Kevin Mathewson as a good thing, while speaking against me.... best resume builder I can have.

My response to Kevin for public knowledge:

Wonder if he filed his own paperwork like Kevin Mathewson, Commander of the Kenosha Guard, an illegal paramilitary domestic terror group.

During Trump's time in office, some of the most horribly structured surveys in American history were disseminated to the public. Questions like-

"How well of a job do you think President Trump is doing?"

- a.) Amazing
- b.) Good
- c.) okay

Well in the spirit of **white supremacy**, falsehoods and misdirection that goes against the best interest of the public, our resident self proclaimed kenosha militia leader Kevin Mathewson just sent this out to all the local political leaders:

Good Evening City Council Candidates,

I respectfully invite you to answer the below questions in reference to your bid for City Council.

Your answers will be published verbatim and without opinion or editorializing.

The Kenosha County eye is seen by approximately 60,000 people every month and during the month of November, due to the Rittenhouse trial over 1 million people clicked on to [KenoshaCountyEye.com](https://www.kenoshacountyeye.com).

I think the more information we can provide to voters the more equipped they will be to make an educated decision when they cast their vote.

Please provide me with a photo of yourself that you wish for me to include and a bio of yourselves to go along with your responses.

Thank you,

Please respond by March 21, 2022.

Occupation:

Why are you running for the City Council?

If elected to the City Council what will your three biggest priorities be?

Please explain how you will make yourself available to constituents.

Do you believe the city administration responded appropriately to the Kenosha riots of 2020?

He alleges 60k people watching his site for a town of 100k. Is it likely Kenosha has 60k racists? Or is it more likely that Kevin Mathewson preaches a message that reaches 60k people in America?

Now luckily for me, Kevin Mathewson is too stupid to realize that this makes it even easier to prove his **white supremacy**. It makes it so much easier that even posting this publicly knowing his hillbilly wedding photographer self will try to present this in court, it won't matter, but simply be a funny moment. If Kevin WASN'T a **racist**, there are things his allegedly objective news source would have done by now, or would do before our summertime case.

Again, he is an idiot, so he won't do those things.... because he is a **racist**. I didn't say stupid racist because that it redundant.

Oh..... and if you are someone that has been witness to, or affected by Kevin Mathewson's **white supremacy** actions or **domestic terrorism** activities, contact me directly, or look out for the law firm billboard signs that are going up soon.

Power to the People.

Kevin Mathewson, the domestic terrorist white supremacist, has written no less than 4 articles on the recent tragedy downtown Kenosha.

Why? Because he knows the victim is kin of a local minority leader. 4 articles in a matter of days. Simply to spread more hurt and harm.

This is why I am continuing my legal campaign against him.

Domestics terrorist need to be put on notice. As well the women supporting them. As well the families they train up to follow in their terrorist ways. As well the idiot lawyers and politicians supporting their terror campaigns.

We the people must stand.
